

## **Theatre Communications Group Legacy Leaders of Color Video Project**

The link below includes a series of video interviews with leaders of Theaters of Color in the United States. The Theatre Communications Group created the *Legacy Leaders of Color Video Project* to “honor the legacy of those who came before, who started these theatres to:

- Create opportunities lacking for artists of color
- Challenge appropriation and misrepresentation through staging the full richness and complexity of racial, ethnic and cultural identities
- Gain political power and creative autonomy
- Contribute their unique aesthetic and social perspectives to the American theatre and wider culture.”
