

## “In the Hall of the Mountain King” by Edvard Grieg

<https://www.youtube.com/watch?v=e6XxTGXly-M> (2:56)

I can use my instrumental skills to play with the group.

I can:

- \_\_\_ Play my instrument with correct technique
- \_\_\_ Play my part accurately by the symbols
- \_\_\_ Play the group tempo (that gradually speeds up) – stay with the bouncing marionette

Instructions:

1. Only watch the video to see what the marionette characters do along the way. Do you notice how the music gradually speeds up?
2. Watch the video and practice following the music by tapping or patting when the marionette lands on every symbol. Remember the little bat means silence. 
3. Choose 1 symbol and the instrument or sound you want to make on that symbol. Practice your instrument or sound.

4. Watch the video and play every time the marionette lands on your symbol. Beware! The music gradually speeds up.
5. If the music is too fast at first, click SETTINGS (cog) in the lower right corner and from there you can slow down the video.
