

Mystery Musical Sounds Scavenger Hunt!

Find **5** objects around your house or apartment that make a musical sound. It would be fun if you and someone else in your family had a contest to each find 5 sounds.

When you find a musical sound, write the name of the object in a bubble and practice making its sound with your voice.

I can use my voice to echo musical sounds.

After all your bubbles are filled, make one of musical sounds again with your voice and have a family member guess what object makes that sound.
